We strive to present a full list. If a part or service is not listed, please contact us, for we have the ability to source parts and repairs that don't appear on the list.

Prefix Legend

No Prefix	New Part. Does not require the old part to be returned to BSL. (New part is the highest cost to customer)
E	New Part (requires exchange of old parts)
X	Part is refurbished to New condition. There might be cosmetic blemishes that have no effect on the operation (e.g. scratches)(Cost effective pricing since we re-use castings and/or parts that are non-wear and non-critical items to the assembly)
RE	Refurbish/Exchange: a refurbished part (see above X) will be sent to you immediately upon placing the order. You must, within 14 days; return your defective part to us Pre-paid. (RE is priced more economically than X, since we get your part in return and it is a high usage item that we regularly refurbish and hold in stock ready for your order)
R	Repair. You send us your faulty part. We will repair it and send it back to you. (Most economical for the customer)
U	Used. Sold as is, where is. Working condition.

Return Policy

Damage: Open boxes immediately. **Do not return the item.** Hold at your premises with the packing material and notify us of the exact item(s) damaged. We will then inform you of the proper procedure(s) to obtain replacement. BSL must be notified of the damage within (7) seven days of receipt. The damage must also be reported to your carrier immediately.

Returns: All returns must be accompanied by a Return Material Authorization Number (RMA#) supplied by BSL. Please call (203) 775-4242 or email us; sales@betasquaredlithography.com for an RMA #. Customer has 14 days from issue date to return merchandise; RMA# will not be valid after these 14 days.

The RMA# must be printed legibly in BOLD print on the outside of the shipping box. Customer must have a copy of the invoice in the box and indicate the reason for the return.

All parts must be returned with all accessories included and in the original packaging. Any returns not having this information will not be accepted as a valid return and will be returned to the customer.

Shipping charges on original orders are not refundable.

We WILL NOT issue "Call Tags" for pickup of return packages. The customer is responsible for returning the part and will be re-charged for the replacement part if applicable. A refund will be issued upon receipt and inspection of returned part.

A 15% restocking charge will be applied to any returns due to customer error. (see Re-Stocking Charge Policy)

Re-stocking Charge Policy

If a customer determines that they no longer need a part(s) or it is just not what they want, a 15% restocking charge will be applied against the original charge--NO EXCEPTIONS.
